

PERFORMANCE LUBRICATION

PRODUCT INFORMATION

GLOBAL GLASS CLEANER

Windscreen washer

DESCRIPTION

Windscreen washer fluid with antifreeze based on deionised water and alcohols with detergent, conveniently added to clean the car windscreen, lowering the freezing point and without harming the elements with which it is in contact.

PERFORMANCE

It does not contain solid additives, and since it is formulated with deionised water and alcohols, it does not produce solid deposits that could form scale in the windscreen wiper circuit.

The tensio-active power of the additives enhances the brushes' cleaning ability, removing dirt quickly.

CONDITIONS OF USE

Maintenance interval as recommended by each manufacturer and adapted to its own use.

TECHNICAL FEATURES

COLOUR:	Blue	pH at 25°C:	6.5 ± 0.5
SMELL:	Mild lemon	FREEZING POINT:	-5°C / 23 F
DENSITY AT 15°C:	0.980		

Rev. 11/23
